RULES	
<ol style="list-style-type: none"> 1. Upon your arrival and during your stay at the spot, please respect other guests and observers and use only red light. Download red light torch app for your mobile phone. 2. When taking photos please, DO NOT USE FLASH. The site is one of the darkest areas in Cyprus and people are gathered there to enjoy the spectacular starry sky view. It takes some time for the eye to restore night vision that is why we appreciate your attempt to avoid projecting direct light from torches and cars. 3. If you are planning a long stay, please make sure to bring appropriate clothes since it can get a bit chilly in the morning. 4. Insect repellent is advised. 	
<p><i>Thank you for cooperation. Enjoy the most magnificent meteor shower of the year and Join our spacewalk...</i></p>
